### Alice Longworth Says

(Special To The News)  
WASHINGTON, D. C., May 2.—Words and figures, constantly used, lose their meaning. For instance, in one day's news we have a prominent display of the words budget and economy.

Budget used to mean a balance between income and outgo. The president uses it to indicate a program that has piled up a deficit of six billion dollars.

Mr. Morgan-thau marks it down to \$5,966,000,000, using the psychology of the bargain price-maker who writes the tag at \$1.95 instead of \$2.00. It makes the customer feel better.

The White House handouts to the press are emphasizing more and more the word economy, without, however, citing any actual instances of curtailment of expenditures.

A dictionary defines economy as "thrifty administration." But Mr. Roosevelt applied the word to the Public Works Administration.

An effort by the house to earmark a mere three quarters of a billion of the PWA appropriation is opposed by the president on the ground that it would interfere with his "economy program." That is the current official characterization of the New Deal extravaganzas.

ST. PAUL, Minn., May 2.—A regiment of peace officers, bristling with machine guns and rifles, greeted Alvin Karpis, public enemy No. 1, at the municipal airport today and rushed him to the federal court house.

Included in the heavily-

armed escort was a detachment of armed men from the Minnesota national guard.

Karpis, who was seized in New Orleans last night, and flown here in a 14-passenger Douglas specially-chartered plane, was personally escorted by J. Edgar Hoover, chief of the G-men, and a half-dozen of his agents.

When the big airliner came to the ground at 8:45 a. m., after a stopover in Kansas City earlier in the morning due to bad weather, the army of agents and troops converged upon it.

There was a hurried conference at its door between Clinton W. Stein, agent in charge of the St. Paul office of the department of justice, and a man in the plane, apparently Hoover.

Locked In Hangar

Then the doors of the 109th Minnesota National Guard hangar were flung open, and the hangar and its entrance cleared of a big throng of onlookers and the ship slowly proceeded under its own power into the hangar and the doors were closed and locked.

Inside were six automobiles belonging to the federal men. Karpis manacled and surrounded by agents, was hustled into one of them. The others were quickly crowded with G-men and the cavalcade left the airport and drove through the downtown streets to the federal court house where, through a milling crowd, the gang chief was taken to face arraignment, presumably on the charge of kidnapping Edward Bremer, wealthy banker who paid a \$100,000 ransom.

Karpis, clad in a white shirt and wearing no coat, was tanned and (Continued On Page Two)

### Confusion Abounds In Europe Over Haile Selassie's Flight

By H. R. KNICKERBOCKER  
International News Service Staff Correspondent  
(Copyright, 1936, by International News Service)  
LONDON, May 2.—Emperor Haile Selassie's spectacular flight from Addis Ababa threw Europe into confusion today.

It bitterly humiliated Britain, exalted Italy, and crushed hopes of all remaining believers in the League of Nations, but at the same time it opened the prospect of one more breathing space for peace on this continent.

Escape of the emperor utterly dumfounded all who had known him and destroyed a great structure of illusions about the heroic resistance of Ethiopia.

Coming atop his declaration of yesterday that Ethiopia would fight to the last man, the emperor's apparent decision to save his own skin evoked shocked dismay among those who had advocated that this country risk war with Italy to save him.

Only Excuse Offered.

So strong is this feeling that the hypothesis is now advanced that he may possibly intend to alight from the train on the way to Djibouti and join Ras Nasibu, his son-in-law, in a last stand against the Italians advancing against Harar.

This, however, is the sole remaining conceivable excuse his friends can offer.

It is considered unavoidable now that sanctions against Italy must end, as there is no government in Ethiopia for sanctions to defend, and, once the emperor has left the country, it is unthinkable he could return.

The truth about the emperor's intentions probably will be known tonight. The train at this season of the "little rains" normally takes three days to go from Addis Ababa to Djibouti, travelling only in the daytime as it is a dangerous run at night due to the possibility of washouts.

Escape Pleases Italians.

But it was likely the emperor's "escape special" will drive through at top speed to finish the journey in 24 hours, as in the dry season, in order to escape the Italians pressing toward the railway.

The Italians, however, probably (Continued On Page Two)

ROME, May 2.—Marshal Pietro Badoglio, commander of Italy's East African campaign prepared today for a triumphal entry into Addis Ababa, an event expected by the Italian public almost hourly in view of the flight of Emperor Haile Selassie.

While the official military communiqués, covering yesterday's progress, continued to run behind the public's expectations by placing the northern fascist columns several score miles out of the Ethiopian capital, press dispatches made it plain that Addis Ababa was at hand.

Operation of the Addis Ababa-Djibouti railroad, over which the emperor and his family fled, was reported suspended and another report, which would please the Italians if true, was that the crown prince, after leaving the city with his father, had turned back to surrender the capital personally to Marshal Badoglio.

Italians pointed out that if the crown prince were to surrender the capital, the Ethiopian population probably would be immeasurably more friendly to their new rulers, the soldiers of Il Duce.

### LONE BANDIT IN STORE ROBBERY

Enters South Jefferson Street  
Store At Closing Time—  
Secures About \$35

Armed with a revolver, a lone bandit at 6 p. m., Friday, held up two employees of the A. & P. store at 32 South Jefferson street, robbed the cash register of \$35.00, and escaped in an auto parked outside the store.

Manager Edward Schneider and a clerk, Hugh Daugherty, were inside the store which was about to be closed for the night when a shabbily attired young man entered.

He pointed the revolver and ordered both to the rear of the store with instructions not to move until they heard the motor of the car running.

The bandit then took \$35.00 from the cash register and fled. The employees called police. Lieutenant Criswell and Officers Kennedy, Suber and Flinger responded.

They scoured the city but the man made good his escape.

The victims described the bandit as being 30 years of age, five feet eight inches tall, weighed 140 pounds, wore a blue sweater, brown pants and had a red bandana around his neck.

### Prefers Peril Of Jungle To City

MRS. ISABEL HUBBARD

By Central Press.  
NEW YORK, May 2.—Mrs. Isabel Hubbard is a native New Yorker who married an explorer and scientist, and spent her honeymoon in Africa, sleeping in the topmost branch of a wind-rockered tree to escape wild beasts. Her two children were born in the African jungle, but Mrs. Hubbard asserts that she is more afraid of traffic in New York streets than in the jungle with its marauding animals, slithering snakes and poisonous insects, and would rather be in Rhodesia than in Manhattan.

In 1931 Mrs. Hubbard married Wynant David Hubbard, ex-Harvard football star, scientist and explorer, and went to Rhodesia, where her husband established an experimental station to study the tsetse fly. It was while their home was being finished that the Hubbards took to the treetops for sleeping purposes. Two children, Isabel, now three, and Wynant, 15 months old, were born in the jungle, and besides her children Mrs. Hubbard cared for a tiny lioness cub given her by a chief.

CLEVELAND, O., May 2.—Confident he has an air-tight case against Alvin Karpis, and four members of his gang, District Attorney Emerich B. Freed today launched plans to have Karpis brought here for trial in the \$46,000 Garrettsville mail train robbery.

Freed planned to confer by telephone today with Joseph B. Keenan, fellow-Cleveland and now assistant attorney-general in charge of criminal investigation, relative to bringing Karpis here for trial.

Karpis and Fred Hunter, who was seized with him in New Orleans late yesterday, are among the five named in warrants issued here for the Garrettsville robbery last November.

Governor Earle To Stand  
Firm On His Suggested  
Tax Raising Plan

By ARTHUR H. WAKELEE  
International News Service Staff Correspondent  
HARRISBURG, May 2.—An immediate emergency appropriation to supplement nearly exhausted state funds for unemployment relief, it was predicted today, will be the first problem to confront the general assembly in the special session that is to get underway next week.

Available state funds for relief officials estimated, will not carry the burden far beyond the second week of this month. . . . to provide for the critical condition, an immediate appropriation of approximately \$10,000,000 has been suggested.

Further evidence that relief will be presented as the primary problem for the commonwealth's legislators was seen in rumbling of discord over administration tax proposals to provide the relief appropriation. Thus far revenue measures to raise \$70,500,000 estimate for relief needs during the remainder of the current year have been the only tax recommendations made public by state officials.

Earle To Maintain Stand

Reports that only a suggested 10 per cent liquor tax would be supported by administration opponents brought an immediate response from Gov. George H. Earle that he would stand by his program as outlined to a joint legislative committee named to "harmonize" a program for the special session.

Asserting he would not change his revenue proposals until "something better" is advanced, the governor said:

"The \$70,500,000 is needed for relief. My tax proposals were the best I (Continued On Page Two)

(BULLETIN)  
(International News Service)  
ADDIS ABABA, May 2.—With Italian troops advancing relentlessly toward his capital, Emperor Haile Selassie early today left Addis Ababa on a special train bound for Djibouti, French Somaliland.

He was accompanied by Empress Menen, Crown Prince Asfaou Wosani and his entire family, Foreign Minister Herouy, Ras Kassa, Ethiopian commander of the shattered northern defense forces, and several other Ethiopian government officials were also aboard the train.

The emperor's departure followed his dramatic decision to abandon the capital to protect the civilian population.

Only a few hours before he left, however, the Negus sent out two small forces to attempt to stem the Italians advancing from the north and steadily converging upon the city. Last available reports placed the Italians 30 miles from Addis Ababa.

The last-minute forces were sent out chiefly for "moral reasons," it was stated. If, as expected, they failed to halt the Italians, they planned to fall back toward the west rather than to the capital.

Departure of Selassie in the direction of Djibouti occasioned considerable surprise, since it previously had been stated the entire Ethiopian government would leave Addis Ababa to set up a new war capital most likely at Mendi in Wallega province, 280 miles west of Addis Ababa.

There was even a disposition, in some unofficial quarters, to believe (Continued On Page Two)

New Jersey Detective Predicts He Will Be Indicted In Case

### CHARGES PLOT AND FRAME-UP

(International News Service)  
NEW YORK, May 2.—The man who played a leading role in the efforts of Gov. Hoffman of New Jersey to save Bruno Richard Hauptmann, Sr., famous country sleuth, today was openly accused of being the guiding genius behind the kidnapping and torture of Paul H. Wendel.

The 64-year-old detective was implicated in the Wendel case, District Attorney Geoghan of Brooklyn asserted by Murray Bleefeld.

At his home in Mount Holly, N. J., the elder Parker, whose son Ellis Park, Jr., is under indictment as one of the Wendel's abductors, predicted his own indictment and arrest as a result of Bleefeld's alleged accusation.

"I certainly expect to be indicted as part of the general plot and frame-up," he said. "They framed my boy with a case that is dirty all the way through."

"There's no reason, knowing the type of men behind it here, why they shouldn't come after me."

Bleefeld, who was arrested in Cincinnati and brought back here, made a complete confession, Geoghan declared and implicated other New Jersey officials besides Parker. Bleefeld's confession will blow the lid off the whole case," Geoghan said.

gantic and joyous celebration of the fall of Addis Ababa and conclusion of the present phase of the Ethiopian campaign, climaxing seven months campaigning and winding up just ahead of the "big rains," which will hamper military activities until fall.

It was announced officially that the battle flag of Vittorio Veneto, where the Italians finally crushed Austrian resistance during World War and wiped out the stigma of the defeat of Caporetto, would be sent to Addis Ababa upon order of Premier Mussolini himself, to be hoisted over the Ethiopian capital after its capture.

Ever since the war the flag has been kept in a resplendent casket. Opening of the box and dispatch of the flag to Ethiopia will symbolize the Duce's repeated statement that the Ethiopian war represents a great "national" victory for Italy.

While Rome still awaited news of the taking of Addis Ababa, reports from Djibouti said "official occupation" of the capital was expected tomorrow.

Motorized columns advancing upon Addis Ababa passed the difficult natural obstacles of the Gersa and Wascia ridges, the highest points between Dessie and Addis Ababa. Marshal Badoglio himself left Dessie to take part in the triumphal entry into Addis Ababa, and orders were given to the leading Eritrean troops to modify their pace to allow the heavy truck columns to catch up with them, press dispatches said.

It is interesting to know that we have in the United States over ninety some different species of sparrows and here are a few of our most important ones: The vesper sparrow, grasshopper sparrow, white throated sparrow, chipping sparrow, fox sparrow and the delight of all bird lovers the song sparrow. The above mentioned birds do us a great service in destroying insects. We cannot class the English sparrow with those of our native birds as it is considered by many to be a nuisance but one must remember that the English sparrow holds a very high place in the consumption of destroying beetles and many small moths that are found about in the summer.

### CONFUSION IN EUROPE OVER HAILE'S FLIGHT

(Continued From Page One)  
would prefer to have the emperor escape, as they consider his flight more valuable to Italian prestige than would have been his capture.

From the Italian point of view, it will also add to Europeans' appreciation of Italian troops if Addis Ababa experiences looting before their arrival.

Generally considered, the emperor's flight only saved the country from futile last ditch fighting which would cost the lives of more thousands.

As a shrewd realist, the emperor knew when Britain failed to close the Suez canal that he was doomed. He then tried his own audacious attack in the north and was beaten, and now he has chosen to follow no less an example than Napoleon's after Moscow and again after Waterloo.

Nevertheless the British, who let the emperor down, feel he has responded in kind.

The Lion of Judah at the start of the war was known to have sums ranging around a half million dollars abroad. His friends believed he had spent nearly all on the war.

Now it remains to be seen whether the same spirit and foresight which apparently prompted his flight had not also provided funds for a comfortable existence on the Riviera.

healthy looking. He seemed careless and indifferent when entering the courthouse.

### FACES TWO CHARGES

The gang chief's debonair mien belied the nickname of "Old Creepy" given by his pals, because he even got on their hardened nerves.

Authorities today were undecided whether they would prosecute him for the kidnapping of Edward G. Bremer or William Hamm, from whom it was alleged Karpis and his mob received a total of \$300,000 ransom money.

The capture of Karpis ended one of the most intensive and tenacious man hunts in department of justice history. For more than two years the G-men hung on his trail until last night they closed in, and the gunman surrendered without a shot being fired.

A veritable army of department of justice agents led by J. Edgar Hoover, chief of the federal bureau of investigation, captured the elusive Karpis at New Orleans, La., without firing a single shot late yesterday afternoon. Taken with him were Fred Hunter, 37, who was wanted for a \$34,000 mail robbery in Garrettsville, Ohio, in which federal agents say Karpis participated, and an unidentified woman.

The capture was effected as the trio strode from a house in Canal street, in the city's residential section.

### "Mystery Woman"

Hunter and the "mystery woman," an attractive girl in the early twenties, with honey-colored hair, were still prisoners in the federal building today. The woman's record was being carefully checked, it was said. Hoover revealed that he had known Karpis was in and out of New Orleans for the past two months the G-men have been scouring the nation for him.

Did Karpis resist? Hoover was asked.

"He never had a chance," the chief of the G-men replied. "There were too many guns on him."

"How many?"

"We never give out figures."

Although Hoover did not reveal whether or not Karpis was armed or not, it was reported that the killer was well armed.

As Karpis was being taken from the federal building at New Orleans to a waiting automobile, which whisked him to the airport, he walked with a jaunty step and no trace of fear or chagrin showed on his impassive, smooth-shaven features. He displayed momentary annoyance at the lights of cameras men playing on him, however, and sought to shield his face with his arms.

### Submits Calmly

Hoover personally put Karpis into the automobile, giving him a gentle shove which the gangster didn't seem to mind. At the airport, the most widely hunted desperado since John Dillinger and "Baby Face" Nelson submitted calmly while the federal sleuths chained him to a seat in a cabin plane.

E. M. Comeaux, an eye-witness to the arrest of Karpis and his two companions, agreed that the trio never had a chance to shoot it out. The G-men apparently had taken the utmost precautions to take the gangster alive without a slip-up at New Orleans.

According to Comeaux, the government men surrounded the house in which Karpis was hidden, and called to him to surrender. Karpis, Hunter and the "mystery woman" then walked from the house and raised their hands when the G-men commanded them to do so.

The government only last week announced a \$5,000 reward for the capture of Karpis, whose long list of crimes allegedly include participation in the Hamm and Bremer kidnappings.

that "a brunette girl" gave G-men the tip that led to Karpis' capture, and got \$7,000 for it.

Karpis Folded Up  
St. Paul, May 2.—Stammering, stuttering, shaking as though he had palsy, the man, upon whom was bestowed the title of public enemy No. 1, folded up like the yellow rat he is.

So today J. Edgar Hoover, chief of the G-men, described the capture of Alvin Karpis which he engineered himself in New Orleans last night.

Stating that the gang chief's capture had not cost the federal government one cent of the \$5,000 reward offered, Hoover added: "There was no betrayal of Karpis by his pals or others. The man who said he'd never be captured quit use the yellow rat he is and the rest of gangland is at heart."

Asked whom the government now regards as public enemy No. 1, Hoover replied:

"Why, we don't rank the yellow rats. It is you fellows who do that for us, but if you want to know who I rank as public enemy No. 1 today it is Old Man Politics."

## HAILE SELASSIE LEAVES CAPITAL AS ITALIANS NEAR

(Continued From Page One)

Selassie's departure on the Djibouti train might be a ruse to fool the Italians as to his whereabouts, and that he might suddenly leave the train and turn up at some unexpected point.

### Chaos Over Capital.

London, May 2.—Emperor Haile Selassie, Empress Waizeru Menen, and the entire Ethiopian royal family fled by train from Addis Ababa toward Djibouti, French Somaliland, today, and immediately after they left chaos broke over the Ethiopian capital.

This news was cabled to the British foreign office by Sir Sydney Barton, British minister to Addis Ababa, in one of the very few messages coming out of Ethiopia. The capital was virtually deserted as Italian armies pushed toward the city and threatened momentary occupation.

The British considered the emperor's flight the end of the organized resistance of Ethiopia to the Italian invasion.

Virtual anarchy followed departure of the emperor, Sir Sydney reported, with shooting, looting and other disorders breaking out throughout the capital.

All preparations had been made for British and certain other foreign residents of Addis Ababa to take refuge in the British embassy compound, located a few miles outside the capital, and having bomb-proof shelters.

Dispatches from Rome indicated bad weather, and bad weather alone was holding the Italian drive from the north, with heavy rains and high streams making progress comparatively slow.

Near Addis Ababa.  
The Fascist columns nevertheless were progressing steadily, and were expected to reach Addis Ababa over the week-end.

The emperor fled after dispatching two small forces to the north to meet each of the two Italian columns coming upon Addis Ababa. Their "defense" was expected to be little more than nominal, and the fall of Addis Ababa was regarded as imminent.

Flight of the emperor reached London as a surprise, since it had been expected generally he would go west from Addis Ababa to Mendi, in Wailega province, 280 miles from the capital, and there conduct a guerrilla campaign against the Italians.

Now, however, the Negus' plans were regarded here as uncertain. It was pointed out his departure on the Djibouti train did not necessarily mean he would go to Djibouti, and that he again might go into hiding to prevent his capture or harm by the Italians.

The British considered that if Emperor Haile Selassie reached Djibouti he would no longer be regarded as emperor of Ethiopia. However, they declared the policy of peace negotiated on the framework of the League of Nations still must be pursued.

The situation was considered grave, the serious complications arising from it were being considered immediately by the foreign office here.

Foreign Secretary Anthony Eden was at the foreign office throughout the morning.

Big Revival Wanted.  
Woman Are Braver.  
And Much Wilder.  
Are Nations Insane?  
By ARTHUR BRISBANE

LOS ANGELES, May 2.  
According to Bishop James E. Freeman, religious enthusiasm must save this country from its troubles if it is to be saved. Says he:

"We shall have no permanent recovery in this country, no matter what laws are passed, until we experience from coast to coast a sweeping religious revival."

America has seen great revivals led by Moody and Sankey, the late Billy Sunday and other powerful revivalists, depending largely on music, fear of hell and mass psychology to produce repentance. But those revivals, based on individual desire for salvation, have never been nation-wide, or even state-wide.

CRUSADES in the middle ages, sweeping entire populations toward the Holy Land, ended disastrously for the Christians, with "pagans" in charge of Jerusalem until the days of Arthur Balfour and the big war. They proved what might be done if religion, taken seriously, could be turned toward politics; but this is a day of faith smaller than a mustard seed, few mountains are moved except by steam shovels.

IN THE COMING big conventions any reference to divine power will probably be perfunctory as usual; men will continue to rely on their own law-making wisdom.

DR. WALTER Emerson Briggs, who teaches dentistry in Tufts College, says:

"Women can take any kind of pain without a whimper." Women endure pain more courageously than men. Childbirth has taught them to suffer, and endure in isolation. Man shows his heroism preferably in crowds, in squadrons, platoons; often he would not do that if it did not mean to go ahead with the others.

Women's is the courageous sex, man is the other kind and might as well admit it.

IN ADDITION to being braver than men, women feel with greater intensity. Mrs. Loretta Kruger, arrested, accused of stabbing her husband seven times because "he was going out with his secretary," sits sobbing, telling how much she loves her husband, BUT:

"I would rather see him dead than with another woman."

MRS. KRUGER lives on the edge of the Atlantic. Miss Helen Livingston, only 23 years old, who lives out here near the Pacific, startled police and traffic, jumping through a window and shattering a glass window one flight up.

She dived over a sofa through the window, landing cut, with clothes torn, saying, "Don't let him near me," and told the police:

"I got so mad at him I jumped through the window."

Men do that only in comic strips.

DOUGLAS BURTON, 30, brilliant English literary critic, was informed by a former "international beauty" that a young author, Douglas Bose, had blackened her eyes.

Burton dashed at Bose, who turned out to be an "abnormally thin skinned" and killed him. The jury found him insane when told he sincerely believed that "murder might be a social duty."

What would that jury say about nations of Europe that have the same theory?

MUSSOLINI's men are close to Addis Ababa. Their planes have landed on the city's airport. Natives are fleeing, Europeans, including representatives of this government, have taken refuge in the British legation's "compound."

England, believing in "preparation," has a good supply of machine guns, canon and fighting men in her diplomatic "compound," not for protection against Mussolini's men, but against any murderous uprising of Ethiopian natives, maddened by complete defeat.

The United States has not yet "got around" to the preparation theory, but it will do so, here and abroad.

SENATOR KING, of Utah, Democrat, believes Gov. Landon will be the Republican nominee. He is a good man, sound and something of a Coolidge.

Gov. Landon's friends say he is more than that. He is "something of a Landon," a good sample of American common sense, convinced that the system under which this country was created might still carry it along. His friends say he has proved that theory in his management of Kansas.

## Hints and Dints

Sun sets tonight 6:55. Sun rises tomorrow 4:58.

The fools are not all among the laymen. At Washington a congressman has been arrested for driving his car at 70 miles an hour through city streets. He's a bright and shining light to hold up as an example to the younger generation. If he's as irresponsible in his legislative acts as in driving a car, it's no wonder the country is in such a mess.

In Burlingame, Cal., last week a wife, sitting beside her husband in their automobile, was seized with a sudden desire to kiss him and did. The husband was so surprised he lost control of the car and had a wreck. He was fined a five spot. And so, folks, we issue this warning:

Five things observe with care:  
If your lips  
Would keep from slips  
Five things observe with care:  
Whom you kiss,  
How you kiss,  
And when  
And where.

Disgusted workers in one of the shops placed over the desk of a lazy comrade the blue eagle with the line "We Do Our Part" erased and its place was taken by "We Do His Part For Him."—Minneapolis Journal.

A Philadelphia girl received this letter from a soldier in France:  
Dear Miss Banker: Last December I received a pair of socks in one of these I found your card. I have worn them ever since. Can you send me another pair? Something tells me I need a change.

If equality actually exists in Russia we wonder what a buck private says to a top-sergeant when they happen to meet on the street.

With "call" money rates reduced to the lowest point in record, it would seem as if we might call a little of it our way.

When part of the country is on daylight savings time and the other half enjoying the good old standard time, it isn't hard to find plenty of things to kick about.

New Jersey's "arm of occupation," comprised of people who seek relief, continues to squat in legislative halls and about the state capital. Police have orders to let them alone as long as they are peaceful, which we presume they are as long as they are fed and furnished with free cigs. and tobacco.

"You know, of course, that George Washington never told a lie," said a teacher to a pupil.

"No," answered the pupil. "I don't know it. I've heard it."

You can tell when daughter is really in love. She quits reading his letters to her friends.

A Milwaukee doctor suggests that the premium burden of a compulsory accident insurance be placed on motorists who drink and drive at the same time. Wouldn't a bounty be more satisfactory?

The commonest objection to any tax bill is that it doesn't hit the other fellow hard enough.

At an Army officer's funeral (if in a mounted branch of the service) his horse, saddled and fully equipped, is led behind the vehicle (usually an artillery caisson) that bears the coffin. His army boots are in the stirrups, but placed heels to the front to show that his long march is ended. The three volleys fired over his grave comes from the an-

cient Romans, who threw earth three times upon the coffin of a fighting man at the burial service, calling him three times by name, as they did so. The sounding of "taps"—ordinarily meaning "Lights out!"—is relatively modern.

Here are some submarine questions that you can spring on someone who doesn't see these:  
Which United States submarine led the fleet across the ocean?  
Answer—B-4 (Before).  
Which was not ready to start with the others?  
Answer—L-8 (Late).  
Which is the one one care to travel on?  
Answer—C-6 (Seasick).

A college boy recently established a record by eating 48 eggs in 48 minutes. And still some people wonder if a college education is worth while.

From what we read about the absence of any mention of United States debts in Great Britain's budget, we conclude that John Bull has signed a Declaration of Independence.

The tremendous interest aroused among our boys "over there" in the life of Joan of Arc has revived the old story of the finding of a French priest's records which showed that marriage between a contract of marriage and Joan of Arc, otherwise known as 'the Maid of Orleans.'

Old nurse (to newly married couple after viewing the wedding presents): "Well, my dears, you ought to be very 'appy. There ain't a thing amongst 'em as a pawnbroker wouldn't be pleased to 'andle."—Punch, London.

Scientists tell us that there is enough lime in the human body to whitewash a large chicken coop. Lime is so cheap that the information isn't of much practical use.

The White House grocery bill is said to average around \$2,500 per month for the President's family and 58 persons employed in and around the mansion. These are the "regular" boarders, and of course there are a lot of "irregulars," mostly Democrats.

A fad started in Spokane, Wash., threatens to extend to the East. It's the baking of bread in colors. No doubt this novel product will satisfy the longing for kitchen color and will enable madam to serve sandwiches to match her gown. Nice, we'd say, for pink teas.

The new minister was preaching from the text, "Thou art weighed in the balance and found wanting." After the congregation had listened for some time, a few began to grow restless and went out; others soon followed. Stopping his sermon, the minister said: "That's right, people; as fast as you are weighed, pass out." It turned the trick.

It cost \$7000 to discover America. And here is the way it is figured out in some old documents that have just been discovered in the archives of Genoa: The value of Columbus' fleet is given as three thousand dollars; Columbus' salary was

three hundred dollars a year. His two captains received a salary of two hundred dollars each, and the members of the crew were paid at the rate of two dollars and a half a month.

Washington dispatches tell of nine federal agencies, eight of them created by the New Deal as anti-depression instruments, paying gross annual salaries of \$327,587,977 to 427,301 employees. There oughtn't to be any depression among the folks who are getting the dough.

Bank Creditors Get Break.  
Stop Sales To Insiders.  
Hoover Not To Go To Convention.

By LESLIE EICHEL

Central Press Staff Writer

AT LAST the depositors in closed state banks are beginning to get a "break".

Some judges have intervened in sales, chiefly of real estate, at sacrifice prices to "insiders".

But it is feared that in the early days of some receiverships, much of the choice securities and realty went to "insiders".

An investigation into the receivership of banks would disclose terrible losses to creditors, it is believed.

But depositors are unorganized, and state banking departments in many states are politically controlled.

Incidentally, the Landon people are thinking of hiring a ballroom in another hotel. The Landon headquarters will be the largest.

HOOPER NOT COMING?  
Evidently former President Hoover will not put in an appearance at the Cleveland convention.

As previously remarked, no reservations have been made for him. And all the rooms are gone now.

Rumor has it, however, that he will be on a yacht on Lake Erie, subject to call.

Cleveland could have used four times as many hotel rooms as it has.

A large lake liner will be used as an additional "hotel". It will be docked near the convention hall.

Republicans coming to the convention will find remarkable air service to Cleveland, whose airport is ranked as the "world's largest".

And there are many speedy trains to the city. The New York Central expects to have a new streamliner ready for operation between Detroit and Cleveland in time for the convention.

It's True—President James Monroe died so poor that he had to be buried at the expense of relatives.

President Harding's favorite musical instrument was the zither and he used to invite Rear Admiral Hugh Rodman to come to the White House and play for him by the hour.

Since Thomas R. Marshall made the country aware it had a vice president by saying, "What this country needs is a good 5c cigar," the number of 5c cigars sold has increased from 29 per cent to 88 per cent of the total.

THE DOG GETS A BATH  
THE DIFFERENCE between giving a little boy a bath and giving one to a dog is that the little boy yells to stay in the bathtub—and the dog whimpers to get out.

"How come you got such a hairy nose, Heinie?" the boys used to ask him just for sport. "Yaaaah!" Heinie would say invariably. "If you just kept it outta other people's business, your nose'd be hairy, too."

He whimpered, but took it like a hero while I soaped him and lathered him. Then I dumped him into the water up to his ears and then lifted him out to a table while I ran out the dirty water and ran in clean. . . . He was a very nice little fellow and when I told him not to shake himself he tried to obey. But at last he decided that just one shake wouldn't do anybody any harm. So he did it, shook the cotton out of his ears and shook the water all over the walls and the ceiling. . . . Then I put him in the clean water and soaked him again and then I rubbed him down with a towel and let him head for the sunshine.

Never was a cleaner dog in all the world. Those spots we thought were grease on his back came up as natural black spots. That dirty white of his coat was transformed into snowy white. . . . And that young dog was the happiest fellow on the block. . . . Everybody was happy but the cat, and the cat had the worst day in his life. Mr. Pup thought he had to celebrate by dragging the cat and he kept on the cat's trail all afternoon, fresh and rambunctious. . . . making a nuisance of himself.

We haven't had any private conversation with the cat but he probably thinks that silly family made an awful fuss over getting that fool dog clean just once in his lifetime—when all these years they've had a cat in the family that never lets HIMSELF a bath. . . . That's the sinner saved than over a thousand angels in spotless flight!

## Wampum Services Are Ending Sunday

Two Weeks Of Revival Services To Be Brought To Close At M. E. Church

Revival meetings which have been conducted for two weeks at the Wampum M. E. church will be concluded with the Sunday services. The series has been interesting and uplifting and have attracted large congregations.

Sunday morning Rev. W. R. Vaughn, pastor of the Edenburg Christian church, will preach the sermon from the pulpit of the Wampum church, while Rev. L. V. Mohnkern delivers the message at Edenburg.

## North Side Church Congregation Will Have New Quarters

Has New Location Beginning Tomorrow

The North Side Community church congregation, led by Rev. J. M. Cottrell, which has been meeting in the Glenmore school at the corner of Fairmont avenue and the Wilmington road, will on Sunday meet in a frame tabernacle which has been erected on the Wilmington road just a few hundred yards north of Euclid avenue.

This frame structure was built as a temporary place of worship for the congregation because the school is to undergo repairs this summer. The congregation hopes to be able to build a permanent church on Glenmore boulevard within the next several years when the necessary funds are secured. It owns a lot and some excavation work has been done.

This is a congregation just two years old but has grown so rapidly that it has been unable to hold its Sunday services, morning and evening.

## Mayor McGrath To Head Flood Control Effort

Organization Will Be Formed To Work Other Districts In Tri-State Area

### SEEK TO AVERT FUTURE FLOODS

Mayor Charles E. McGrath has accepted the post as chairman of the new Castle Citizens Flood Committee, it was announced today. Mayor McGrath agreed to head the local organization following a conference at City Hall with Clay B. Burbridge, coordinator for the Tri-State Authority, and an organization will be formed here, Mayor McGrath having announced that he will seek the other members of his committee shortly.

The purpose of this committee will be to support the drive of the Tri-State Authority for immediate Congressional action which will permit the construction of storage reservoirs and other works, recommended by the United States Army Engineering Corps, as necessary to put an end to the frequent devastating floods in the upper Ohio water shed.

According to Mr. Burbridge, the Copeland bill, reported out of the Senate Commerce committee last Saturday, authorizing the building of these reservoirs with local participation holds that this flood control program affects eleven states and that the expense should be a one hundred per cent federal responsibility.

The new Castle Citizens Committee, under the leadership of Mayor McGrath, will ask all local organizations to pass resolutions urging immediate control legislation. Similar committees are being formed in all Western Pennsylvania cities and villages for this purpose.

## Rain Everywhere Except At Track

Brevity Will Get "Real Break" From Weatherman, Likes Dry Track

(International News Service) LOUISVILLE, May 2.—Mother nature was doing her share today to help Brevity, diet J. E. Widener, win the Kentucky Derby.

Although showers fell on the east, central, northwest and southwest sections of this city, there was only a drizzle in the south end where the Churchill Downs track is located. A dry track is expected to aid Brevity, which never has run in the mud; a wet track would handicap him.

## Crown Queen, King Of Posture Friday At Lincoln School

Festival Climaxes School's Celebration Of National Health Day

A fourth grade girl, Rose Toney, of 4B-1, and a fifth grade boy, John Morar, of 5A-1, were chosen queen and king of posture of Lincoln and Garfield school when pupils of that building celebrated National Child Health Day in a special program on Friday.

A queen and a king were first chosen from each of the classes, 50 in all, and then the two winners were selected in the final judging by Dr. Mary Baker, head of health education in the city's schools, Miss Lois Higgins, dental hygienist for the schools, and James M. Hughes, Lincoln and Garfield principal.

The crowning ceremonies climaxed two programs in which many of the youngsters took part.

Stressing the importance of health and posture, the programs were given by the first and second grades under the direction of the health instructors for those grades, Miss June Book and Miss Mary Laughlin, assisted by the Misses Catherine Anderson and Mary Emery, and the upper grades' demonstration under the direction of Miss Ruth Woodworth and Miss Elizabeth Richardson, assisted by the Misses Mildred Updegraff, Margaret Sankey and Principal Hughes.

Health drills, folk dances, songs and plays were features of the latter program.

The good old Virginia reel was danced by the fifth grade boys and girls in costumes and a baseball act by sixth grade boys added merriment.

The selection of the posture queen and king came at the close.

## Playboy Member Of Congress Again Halted As Speeder

Fined In North Carolina On Charge Of Speeding At 70 Miles Per Hour

(International News Service) SHALLOTTE, N. C., May 2.—Rep. Marion A. "Barney Oldfield" Zioncheck, playboy legislator from the state of Washington, was arrested for speeding 70 miles an hour on the coastal highway near here today.

This marks the third time in exactly two weeks that Zioncheck, who married Rubye Nix a few days ago in the capital, has fallen into the toils of the law.

Sheriff Jasper A. Russ was the arresting officer. He nabbed the speeding playboy on a radio tip that Zioncheck had forfeited \$200 bail, furnished by a bondsman following the congressman's last brush with the authorities in Alexandria, Va.

Russ telephoned Alexandria officials and inquired whether they wished him to hold his prisoner for "jumping bail." After a hurried huddle, the Alexandria authorities decided they could not extradite Zioncheck, and told Russ not to hold him.

Russ then hailed Zioncheck before B. E. Bishop, mayor of Shallotte, where he was assessed a small fine and released.

## Grove City-Butler Pair In Old Car, Told To Marry

PITTSBURGH, May 2.—The girls' champion tennis player of Butler and her Grove City boy friend, who ran away last Tuesday to get married, but went broke and were arrested early yesterday in McKeesport, were released from jail with advice to get married and go back home.

Promising police that they would take the advice, Patricia Nunemaker, 17, of 110 West Brady street, Butler, who said she has been the girls' champion tennis player at Butler for the past six years, and Donald Thompson, 21, of 320 Bessemer avenue, Grove City, waved goodbye to the police and started for home late yesterday in Donald's dilapidated automobile.

It was the automobile that really caused Patrolman William Connelly to arrest the pair. He found Donald with a gasoline can and rubber hose trying to syphon gas from an automobile parked in Blackberry street.

## Big WPA Fund Is Approved By Sub-Committee

House Appropriations Sub-Committee Okays \$1,500,000 WPA Fund

(International News Service) WASHINGTON, May 2.—The \$1,500,000 WPA fund sought by President Roosevelt to help keep 3,500,000 people on relief jobs in the next year today was approved by the house appropriations sub-committee on the deficiency bill.

All proposals to earmark the fund, to prohibit "boondoggling" and policies in expenditure of the huge sum, were rejected.

The sum was included in a \$2,300,000,000 deficiency bill which also contains nearly \$500,000,000 to finance the huge unemployment insurance, old-age insurance and old-age pension provisions of the social security program.

Approval by the full appropriations committee was expected to be a mere formality. The deficiency sub-committee, which approved the fund, is headed by Chairman Buchanan (D) of Texas of the full committee and includes ranking members.

## Working Hour W. P. A. Schedule To Be Changed

While no official announcement has been made yet by the Works Progress Administration offices, it is expected that within the next week an announcement will be made of a change in the working hour schedule of the labor forces.

Under the new plan which will probably be announced next week there will be no change in the security wage which for labor is \$57.20 per month. The change will be in the number of hours worked. At the present time the schedule calls for 130 hours per month. Under the new plan enough hours will be worked to provide the men with a fifty cent per hour rate. This will mean approximately 115 hours per month.

Under the present wage schedule labor has been getting \$57.20 per month and skilled labor has been getting the prevailing wage with a total of \$75 per month. Craftsmen who would earn \$1 per hour at their trade have been working 75 hours per month.

The new step will entail a tremendous amount of accountability and will also tend to disrupt present estimates on projects.

## Campbell Becomes Public Enemy No. 1

Prominent Member Of Kidnapping Gang Is Sought By G-Men Now

(International News Service) WASHINGTON, May 2.—With the capture of Alvin Karpis by J. Edgar Hoover's "G-men" at New Orleans, Harry Campbell, a slender, dark-haired desperado, today assumed the fatal role of public enemy No. 1.

Virtually a non-entity in comparison with John Dillinger, Babyface Nelson and other gangland kingpins who preceded him, Campbell, nevertheless played an important part in the kidnapping of Edward Bremer, St. Paul banker, two years ago.

As a member of the notorious Barker-Karpis gang which terrorized the middle west, he received a portion of the \$200,000 Bremer ransom money. Campbell's criminal career dates back to 1920 when he was detained by Tulsa police for a minor charge. A year later he was charged with bank robbery but "beat the rap." Since 1932, his record is studded with wanted notices from mid-western police authorities in connection with a variety of charges including kidnapping, highway robbery and burglary.

Two weeks ago, Attorney General Cummings offered a \$25,000 reward information leading to his arrest.

Spoiled Ballots And Ballot Stubs Missing From Five Election Precincts

The precincts involved were Second ward, second district; fourth ward, fourth district; fifth ward, second district; sixth ward, third district; Ellwood City first ward, first district; Taylor township, and Union township fourth district.

County Commissioners Binger and Hannon went out this forenoon to collect the missing papers. No irregularities were alleged, the boards simply having omitted returning the spoiled ballots and ballot stubs through a misunderstanding of what was required.

## Westminster Chorus Program Is Heard

Westminster Mixed Chorus Is Heard By Appreciative Audience In Third U. P. Church

Before an appreciative audience the Westminster Mixed Chorus of sixty voices made an appearance in the local Third United Presbyterian church Thursday evening, at 8 o'clock.

The program, which included a group of select numbers, delighted those in attendance. Members of the Intermediate and Junior Young People's Department of the church, with Mrs. D. C. Brown and Mrs. John Kenahan, superintendents, sponsored the event.

The program included the following: solos by Charles Schmitt, vocalist; numbers by Women's Ensemble comprising Margaret Parke and Bernice Turner as first sopranos, Sara Enos, Ruth Galbraith and Florence Marriott, second sopranos, and Comfort Spelman and Ruth Stewart, altos; Lowenne Swindler, violin soloist; Miss Ada Penbody, associate professor of music at Westminster, is director of the Women's Ensemble and Alan B. Davis, director of music, is director of the chorus.

Those who accompanied the artists throughout the evening, were Lois Greer, Grace Bell and Janet Bailey. At the close of the entertainment, a silver offering was taken.

## Safety Rally At Hotel On Monday

Most of Lawrence county's industrial plants will have representation at the safety rally to be held in the Castleton on Monday evening, May 4 at 8 o'clock.

The membership of Governor Earle's new safety committee for Lawrence county and the traffic safety committee of the Junior Chamber of Commerce will be present. President W. Herbert Smith of the Junior Chamber will preside. City and county officials will be represented, it was said today. Plans for a future mass meeting to boost safety—highway and industrial safety—will be discussed.

## W. C. T. U. and L. T. L.

**CENTRAL UNION**  
Mrs. H. C. Stillings was a charming hostess on Thursday afternoon at 2 o'clock to the members of Central W. C. T. U. at her home on North Walnut street.

The early part of the afternoon was devoted to hearing reports from the city W. C. T. U. spring institute and planning for a membership drive, a Mother's Day celebration, and a flower mission.

Devotions were in charge of Mrs. C. R. Bartley.

Mrs. Stillings served delicious refreshments, using very attractive appointments.

**SCOTLAND UNION**  
Scotland Union met at the home of Mrs. Wylie W. Hance for its April session this week. Mrs. W. G. Wilkins had charge of the devotion. Mrs. Wimer opened the meeting by prayer and all joined in singing "This Is My Father's World."

M. K. Cox was the guest speaker and gave an interesting and instructive talk on "Alcoholism," demonstrating with posters. A duet was offered by Mrs. Davis and Miss E. Taylor. Walter Wallace sang a solo, accompanied by his sister, Miss Elizabeth Wallace.

It was decided to make a name quilt; an institute was planned for May; and plans were made to meet on the fourth Wednesday of each month during the summer. Roll call is to be answered at the next meeting with names of flowers.

Tasty refreshments were served by the hostess, assisted by her daughter, Elizabeth.

**HIGHLAND W. C. T. U.**  
Highland W. C. T. U. will meet Monday evening at 8 o'clock, in the home of Miss Jane Aiken, 317 East street.

**TO-NITE DINE AND DANCE at HUNTER'S RIVER SIDE INN**  
Grant St. At the Bridge

(Copyright, 1935, by Central Press Ass'n.)

NEW YORK, May 2.—Giving You the Run-Around: Up Riverside Drive, in the shadow of the Rockefeller center, carpenters and painters bestir themselves furiously through these spring afternoons, getting the old Claremont Inn in shape for early opening. This eatery, once so expensive that you could hardly watch the dazzling panorama of the Palisades across the Hudson for worry-owning about the check, is now a city-owned affair. I imagine the tariffs will be a bit more moderate and I hear that a young orchestra leader has been made head man at the Claremont, as well as an official in the city's expanding restaurant business. Name: Freddy Mack, of the movie platforms and dance arenas.

But it is a difficult thing to reduce prices and keep food quality up; in our experience good food is always expensive. Indeed, good anything is expensive—with the possible exception of good government.

If present portents are any indication, there will be more sidewalk cafes in New York this season than ever before. There is a boom among the florists in Privet Hedge, Preferred. The Big Mystery of the spring season has been the slack business at the circus in Madison Square Garden. One ten-year-old told me the answer: "It's because the acrobats all looked tired this year." But that can't be the whole explanation. Could "Jumbo," the circus indoor musical, have jaded the taste of the citizenry for sawdust and animals through the long winter—left them apathetic when the veritable Big Show arrived? But "Jumbo" for all the ballyhoo and the capacity crowds during early weeks, closed a couple of hundred thousand in the red.

I saw George S. Kaufman, richest of the play doctors, collaborators and authors, standing in the lobby during a play intermission the other night. His high, dark pompadour and horn rims give him an expression of perpetual surprise. Legends flock about his career, which has known amazingly few flops, and one of the best anecdotes concerns his telegram, dispatched between the

acts to a comedian in one of the hits he wrote: "am watching your act from the back of the house. Wish you were here."

There is no fan roundabout like the baseball fan. His joy in victory for a chosen club is limitless, his misery in defeat bitter. He will go out to the park on a day of icy blasts—as he did by the thousands the other day—and if his extremities suffer from frostbite he will light bonfires in the concrete aisles of the stadium. Incidentally newspapers give baseball clubs, which are, after all, private enterprises, more free advertising than any other business in the world, except it may be, the business of the various politicians. The fans demand it. Jack White, the song-and-dance man, now whooping it up at Dan Healy's all-night caravan-serial, is certainly no world-beater as an entertainer; yet I think the customers warm to him simply because, in a town of wild and unrestrained baseball fans, he is the wildest and most unrestrained. Used to be a big leaguer himself. As did Bob Ripley, who retired from the diamond when he broke his hand, to make a million dollars drawing cartoons.

## Revised WPA Wage Scale Announced

(International News Service) HARRISBURG, May 2.—Revised wage scales for three groups of WPA workers throughout the state were listed Friday by state WPA administrator Edward N. Jones who pointed out they would be effective for pay periods starting May 1.

In a telegram to John A. Phillips, president of the Pennsylvania Federation of Labor, Jones outlined the new wage scales, as follows: Semi-skilled or intermediate workers—57 cents per hour; skilled workers—65 cents an hour; technical and professional workers 72 cents an hour.

Jones pointed out these wage standards were in addition to the flat state-wide 50 cents per hour rate established for common labor and announced at the federation's convention in Uniontown yesterday. The changes will be accomplished by adjustment of working hours, Jones said.

The bureau of standards says that one volume of water measured at ordinary temperatures will produce about 1,670 volumes of steam at the boiling point of water and atmospheric pressure.

"I'm on the road a lot and how I used to dread those solitary Sundays away from home! All alone... no one to talk to... nothing to do.

"Now it's different. With those new, low Sunday rates in effect, I call my home every week-end. It costs little enough, but it means a lot to her—and to me.

"Think of it—a call that costs a dollar on week-days is only 60 cents on Sundays! And a 60 cent call is only 35 cents. Any time on Sunday I can call home at the same low rates that start at seven every night."

## On Court House Hill

County commissioners have sent out the books to all registering assessors in the county, with instructions to make a thorough registration this year.

A crew of men is at work setting stakes for the Edenburg viaduct, upon which work will be started within a few days. The early start insures completion of the improvement before fall.

Margaret E. Hinkson has filed a suit at the prothonotary's office against Donald L. Cameron, executor in the estate of the late Agnes Ball for \$255. The bill is for boarding and nursing Mrs. Ball during her last illness.

Under the will of the late Andrew E. Stahl of the second ward, which has been admitted to probate at the register and recorder's office, all of decedent's property is left to a daughter, Dorothy E. Butler.

Joseph Noga has filed a suit at the prothonotary's office against the Harrison-Shields Company of Pittsburgh, in which plaintiff seeks to recover \$96.52, alleged damage to an automobile in a collision on Moravia street, near the intersection of Gardner avenue. The Noga car was driven by Frank Noga and the defendant's car by W. Thomas, an employee.

Edward C. Walker of 303 Wampum avenue, Ellwood City, has filed an application for divorce from his wife, Zetta H. Walker, of Coraopolis, Pa., on the grounds of desertion. The couple were married at Butler in June 1931, and afterwards lived at Evans City, Butler county, and Ellwood City.

By the will of the late Nancy E. Palmer, which has been admitted to probate at the register and recorder's office, a son, George E. Palmer is left the one-half interest of decedent's share, or the one-third of the whole of the homestead on Crawford avenue, formerly owned by decedent's deceased husband, Stanton Palmer. Certain personal property is also left to George and the remainder to decedent's grand-daughter, Rachael H. McCracken.

Clara Hammond of 134 Garfield avenue has filed an application for divorce at the prothonotary's office, against her husband, James Blaine Hammond, of Gary, Ind. They were married in July, 1926 at Mercer. The application is made on the grounds of desertion.

Charles Cox, registering assessor in Neshamock township for the past 38 years has resigned, and the county commissioners have appointed his daughter, Mrs. Frances Seleg, to the position. Mr. Cox has probably held the position of registering assessor longer than any other assessor in the county, and has always proven very efficient.

Henry Wetlich, employed in the county controller's office, is one of the fastest adding machine operators in New Castle, and in fact it would be hard to find his equal in the state. The office is equipped with one of the fastest machines made and Wetlich is able to operate it at capacity.

Registration Clerk, Thomas Edmunds, calls attention of voters to the fact that if they have moved, it is necessary that they come to the registration bureau and give their present address, together with their old address. This applies to all persons who change houses, even if

called on Rev. and Mrs. C. C. Baker. Rev. Baker was formerly pastor of the M. E. church here.

Mr. and Mrs. William Kerr and daughter, Miss Lois Kerr were dinner guests of Mr. and Mrs. Lee E. Allen of New Castle recently.

Mr. and Mrs. Meredith Welshens of Franklin, Mr. and Mrs. Melvin Simpson of Polk, were recent guests of Mr. and Mrs. Chas. Simpson.

Mr. and Mrs. Jos. H. Boyd and daughter, Miss Nina Boyd of Princeton were guests Thursday of Mr. and Mrs. Don Cameron and Mr. and Mrs. C. C. Boyd.

Mrs. Dora Cover, Mrs. L. L. Rodgers, Mrs. Robert Garrett and Miss Nell Paland attended the Presbyterian meeting at Slippery Rock Presbyterian church on Thursday.

## Fine Program; Crowd Is Small

Women's Symphony Orchestra Of Pittsburgh Presents Program In Cathedral

Rather a small crowd was in the auditorium of the Cathedral Friday night when the Women's Symphony Orchestra of Pittsburgh presented a program. But these saw and heard an organization that is novel as to appearance and talented in its work.

Under the direction of Carl Simonis, about 60 young women of Pittsburgh and the surrounding cities have been molded into a musical organization of unusual merit. Beautifully balanced, the orchestra presented its numbers in a finished manner and despite the woefully small crowd every number was done with artistry.

Gula Bauder Keagy, a New Castle soprano, was the vocal soloist of the evening and was never in better voice. Artistically the concert was a success.

According to Mrs. Capel McCutcheon the manager, the idea of the orchestra suggested itself when she discovered a group of young musicalians who were unable to utilize their training. "The orchestra is still an experiment" said she. "We know the girls can play and while we would like a larger crowd we feel that eventually the public will appreciate the girls for what they are."

## Former Resident Is Buried At Canton, O.

Funeral services for Angelo Di Orio, aged 66 years, of Canton, O., a former resident of New Castle, were conducted at 9:30 a. m., today in St. Anthony's church, Canton.

Mr. Di Orio died Wednesday at 5 p. m., at Mercy hospital, the result of cerebral hemorrhage. He leaves his wife, Pasqualina, a sister, Rosa, in Italy, and three nephews, Frank DiVitto, of New Castle, Aldo and John, of Italy. He lived in Canton for 31 years and for a short time in New Castle.

## Churchill Downs Jammed To Doors With 60,000 Fans

Annual Classic At Old Kentucky Track Draws Biggest Crowd In Recent Years

Brevity Still Favored To Win, Watch Indian Broom And Grand Slam

By DAVIS J. WALSH  
International News Service Sports Editor

LOUISVILLE, Ky., May 2.—In the air they came this morning and along the roaring rails of the great transportation systems, a seemingly endless parade of people whose ultimate goal was historic Churchill Downs and the 62nd running of the Kentucky Derby, a fantasy in horseflesh that never fails to woo them with its song.

Twenty-four hours ago, it looked as though they were going to give it a miss at last. But, in the night, they sprang up, like Robin Hood's men as though from the bushes, and yesterday the Downs had its record day-before crowd of all Derby history. This morning, the 60,000 we've all been blathering about for years were really here and after every available inch of the town had been spoken for, it looked for a time as though the next step was ordained. They would simply have to hang them on the hooks in the checking concessions.

**Thousands On Hand.**  
Anyhow, there seemed no limit to the influx of visitors from Chicago, Memphis, Atlanta, Detroit, St. Louis, New York, Philadelphia, Pittsburgh and kindred points—coming on the wing and on the wheel. Some rode on the rubber. Others even walked on the rubber.

In a word, there's now the customary allotment of heels on hand. In fact, there's now a broken heel for every gardenia on Fourth street. Everything, as a matter of further fact, was superb except the weather. There were extra police in town to adequately direct the mob scene and extra crews at Bowman field, the air base, to handle the trans-city planes, being run in sections. I might add that 200,000 pounds of beef were imported for the restaurants and hotels which, in a sense, was too bad. If they would only have waited until after the race, they could have had some of the Derby horses.

**Nineteen Starters.**  
The latter, supposedly "tops" in the three-year-old business, numbered 19, including two fillies, Seventh Heaven and Gold Seeker. But by post time the field figured to be 15 or less, with Mr. Widener's Brevity still fancied at the short overnight price of 8-5. In other words, they're still remembering his five wins in six starts and, in spite of the heavy track and the fact that he has never gone under the Derby weight of 114 pounds under the Derby weight of 126 pounds, they think he can do it again.

As Speaker J. W. Byrns is quoted as having said in Washington yesterday,

terday, you have to favor "Gravity" in this race, which reminds me that among those now present are Joe E. Widener and Joe E. Brown. This probably is hardly worth mentioning, except that, when considered at leisure, Joe E. Widener isn't very funny either.

Harry Woodring, assistant secretary of war, was expected late last night. Postmaster General Farley is expected this morning. The governor of the Bahamas, Sir Bede Clifford, and Lady Clifford are already here.

**Brevity Gets Post 14.**  
Post time, a distinct departure from precedent, will be nearer to 4 than it will be to 5 o'clock, central standard time. The day's card, as a matter of fact, will start at the most unseemingly hour of 12:30, an attempt to overcome all problems in connection with what might yet turn out to be the greatest of all Derby crowds. Brevity, the horse that will carry most of the money over the cashier's counter, has drawn No. 14 position at the post and need only break fast to be certain of a clear run down the first stretch.

Just how the Widener horse will behave on a heavy track, no one knows. It rained last night for the third straight day. Showers were forecast for this afternoon. All one now needs, in fact, to make the situation more uncertain is to put the horses on a treadmill.

**Many Choices.**  
Second choice is the Fitzsimmons entry of Granville, Teufel and Merry Pete, with the first two figuring largely in the plans of those who want to go home behind the prestige of cashing a Derby bet. Merry Pete, as a matter of fact, might even be scratched. I would add that scratching is too good for the man who named him. He ought to be scratched and lacerated with poisoned barbs.

Other possible scratches are Dnieper, coupled with Brevity; Seventh Heaven, Holl Image and Silas. The Bradley entry, Bien Joli and Banister, is third choice, which isn't a bad bet if it stays that way. As a matter of fact, Bradley is never a bad bet, whether he stays or doesn't.

Neither is Indian Broom, the little California horse that broke Brevity's record for a mile and a furlong in winning recently at Santa Anita. That race was run in the mud, too, so the estimated price of 15-1 against Indian Broom is nobody's misfortune. There is talk that the horse won't pick up 126 pounds and run a mile and a quarter. But that's something between the horse and its destiny.

Consider, too, while ye may, the pretensions of Gold Venture at 8-1. Goldstream at 12-1 and Grand Slam at 8-1. According to what they say about the latter, if there is enough mud on the premises, his won't be a pretension. It might even be a fulfillment.

**Seventh Heaven Is Scratched In Louisville Today**

(International News Service)  
LOUISVILLE, Ky., May 2.—Seventh Heaven, owned by W. C. Goodloe, was scratched from the Kentucky Derby today.  
The horse, which held No. 11 post position, was quoted in probable odds at 100 to 1, and was to have been ridden by Jockey F. Grill.  
Seventh Heaven's withdrawal cut the list to 17, Dnieper having been withdrawn from the entry of Brevity-Dnieper earlier in the morning.

## May Quarantine Cleveland Team

**Boston Health Officials Probe Illness Of Bruce Campbell**

(International News Service)  
BOSTON, May 2.—Quarantine of the Cleveland Indians, which would upset the American League schedule or postponement of the game with the Red Sox today because right-fielder Bruce Campbell again had been stricken with spinal meningitis seems unnecessary in the opinion of city health commissioner Dr. William B. Keeler.  
However, the commissioner called into conference at city hall today managers Steve O'Neill and Joe Cronin.

All members of the Cleveland team remained at their Back Bay hotel following cultures taken and sent to a laboratory.  
"Personally I see little reason to cancel the game," Dr. Keeler said. "The people watching are well away from the players and in the open air. The players themselves are not in close contact with each other, and they too are in the air all of the time during the game. I don't see that there is any danger at all, but I want to hear how the two team managers feel about it."

## Bruce Campbell Goes To Hospital

**Recurrence Of Spinal Meningitis Sends Cleveland Outfielder To Hospital**

(International News Service)  
BOSTON, May 2.—Striking a serious blow at the pennant hopes of the Cleveland Indians, the entire team today awaited results of laboratory tests of cultures taken of players to determine if the spinal meningitis which struck right-fielder Bruce Campbell, rightfielder, had spread to other members.  
Campbell was at St. Elizabeth's hospital suffering from the disease, after being stricken while enroute here from New York. It was the third time he has been stricken in less than a year.

With several new teams added to the roster this year, making sixteen teams in all, the New Castle Golf League will open its season on Tuesday evening, May 5, at the Sylvan Heights Course.

Because of the early start this year, the teams must be out promptly so that they can begin teeing off exactly at 6 o'clock, or they will be unable to finish before darkness sets in.

The league has been considerably strengthened by the addition of several new teams, and a most successful season is looked for. President A. B. Jackson stated today, in announcing the schedule for the first part of the season, which follows:

The opening day games will be as follows—Croton Progressives at Radcliffers. Knights of St. Vitus vs. Bonnetts at the B. & O. Field. Nobils vs. the Box Factory at the Spencer Field.

The first half of the season will end on Wednesday June 24th. The winner of the first half will meet the winner of the second half in the softball league championship. **Cochrane Will Be Out Of Lineup For Next Several Days**

(International News Service)  
PHILADELPHIA, May 2.—Mickey Cochrane, catcher-manager of the world champion Detroit Tigers' base ball club, will be out of the lineup for the next four or five days.

This was determined Friday after X-ray pictures were made of "Mike's" instep injured when struck by a foul tip in yesterday's game with the Washington Senators. The X-rays, made at Jefferson hospital in this city, revealed no fractures, but the soreness will incapacitate Cochrane for about four or five days.

(International News Service)  
LOUISVILLE, May 2.—Barney Ross had earned a few dollars to wager on the fighter, his choice to win the Kentucky Derby, today, by knocking out Chuck Woods of Detroit in jig time last night.

The welterweight champion put Woods away in the fifth round of a scheduled 10 round bout.

**Hero And Goat**

(International News Service)  
The Hero—Lefty Grove, who pitched his second shutout and fourth straight victory as the Boston Red Sox defeated the Cleveland Indians, 6-0.

The Goat—Russ Peters, whose wild throw put Detroit Tigers in position to score the winning run and beat Philadelphia Athletics, 4-3.

Lefty Grove Tames Indians With Seven Hits In 6 To 0 Whitewashing

Pirates Again Fold Up, Boston Bees Turn Trick 6 To 4, Moore Features

By LAWTON CARVER  
International News Service Sports Writer

NEW YORK, May 2.—Recent widespread predictions that Lefty Grove would come back this season seem to have been slightly in error. He has already arrived.

Apparently as good as he was in 1931, when he scored 31 victories, and showing no sign of the arm ailment that threatened his pitching career in 1934, when he won only eight, the tall, solemn man of the Boston Red Sox has compiled the greatest record in either league to date.

**Wins Fourth Game**  
Grove not only has won each of his four starts, but he has allowed only three runs and has hurled two shutouts in whipping three of the strong clubs in the American League—New York twice, Washington and Cleveland.

He pitched his second shutout yesterday, 6-0, against Cleveland and allowed only seven spaced hits to keep the Sox in the league lead and to cause further speculation as to what Cleveland is going to do. While Grove and the Boston club were thus making it four straight, and pushing the Indians back the Yankees clung to second place by scoring their fifth straight in the series opening with the Chicago White Sox, 3 to 2, in a hurling duel which Johnny Broaca won from the veteran Ted Lyons.

**Tigers Win**  
The Detroit Tigers kept up with the parade, despite injuries that have laid low Mickey Cochrane and Hank Greenberg, and beat Philadelphia, 4 to 3.

Washington displayed its batting punch by rapping out 18 safe hits and scoring a 17 to 1 victory over the St. Louis Browns.

Brooklyn's Dodgers ran up against another Dean, the second in two days, and lost again, this time to Dizzy, 12 to 0.

**Moore Defeats Pirates**  
Two home runs by Gene Moore gave the Boston Bees a 6 to 4 margin over the Pittsburgh Pirates, who used four pitchers.

Lefty Grissom, a rookie southpaw, made his major league debut for Cincinnati and was credited with a 4 to 3 victory over Philadelphia.

New York and Chicago were rained out.

## WASHINGTON AT A GLANCE

### Ifs And Ands On Convention

Landon Will Probably Be Strong On First Ballot At Republican Gathering

#### VANDENBERG MAY GATHER STRENGTH

Central Press Washington Bureau 1900 S street

By CHARLES P. STEWART  
Central Press Staff Writer.

WASHINGTON, May 2.—The fact that Gov. Alf M. Landon of Kansas undoubtedly will start with a plurality of votes at the Republican Cleveland convention doesn't at all prove that he finally will get a majority, presidentially nominating him.

He will fall short of the nomination on the first ballot.

He never may get as many votes subsequently as he probably will get the first time.

**STEWART'S VIEW**  
Certainly he will get no acclamation from Senator William E. Borah's following.

But neither will Borah get any acclamation from Landon.

Colonel Frank Knox will start as secondary to Landon; then will slump to no account.

After that maybe Landon will pick up Knox's and some other strength and be nominated.

But Landon is too conservative for the Borah-ites and others. Perhaps these will swing to Senator Arthur H. Vandenberg, who is not so progressive as Borah, but more so than Landon or Knox—and he will be nominated.

**IF ALL FAIL?**  
I should guess Vandenberg as at least a 50-50 bet.

For some reason some good authorities gamble on Senator L. J. Dickinson of Iowa, because he is the most consistent anti-New Dealer prominently in public life. I can't see him, though he will get a few votes.

But supposing Landon, Borah, Knox, Vandenberg and Dickinson, in order, to be eliminated.

Who then?

Plenty of good judges believe that the Republican nominee will be someone whose name has not been mentioned at all.

To stand the ghost of a show of election it generally is agreed in Washington that he will have to be an extraordinarily happy G. O. P. accident.

**FOR VICE PRESIDENT**  
There is considerable speculation among politicians as to who the Republican vice presidential candidate may be.

It is impossible to tell until the presidential candidate is chosen.

If the agricultural west gets the first place on the ticket, the industrial east will get second place—with qualifications.

For example, if Borah were nominated for president, Representative James W. Wadsworth of New York

(an ultra-conservative) would be an impossible running mate with him. But he would fit Governor Landon very well; would even squeeze by with Senator Vandenberg. As to an unknown—who knows?

**ONE VIEW**  
Adding other vice presidential candidates spoken of on the Republican ticket has been Gov. Harold G. Hoffman of New Jersey.

Governor Hoffman apparently has been "queered" by the Hauptmann case.

Writing to a friend of mine (Strickland Gillilan, the broadcaster), the governor says:

"I have done my share of kissing the babies and waving the flag, but whenever I have been faced with the necessity of what seemed to me to be a vital issue, I have always done the thing that my heart told me was right, and such a thought always has been accompanied by the decision."

"To hell with the votes; they'll take care of themselves."

"My participation in the Hauptmann case, which is considered so bad that even my best friends tell me about it, followed one of these decisions, and I have a deep and abiding belief that time will prove I was entirely right in the matter."

Several years ago city council made a parking lot for automobiles near the Central Fire department which can be reached by driving south in South Mercer street, or east from South Jefferson street.

The city caused to be erected poles on which lights were suspended. Some motorists use the parking lot. There is no fee for parking on the lot.

It is probable that when council convenes Monday action may be taken on some appointments. The solons also may have to act soon on the bid received for the renting of the dance pavilion at Cascade Park.

When the only bid was received it was referred to committee. Cascade Park will open earlier than usual this summer, according to reports.

With warm weather here the woes of Councilman Joseph D. Alexander will increase. One of his woes is the vandalism at the public drinking fountains soon to be placed in operation. Last summer the city fountains were damaged, not once but several times and the plumbing bills proved costly, according to Alexander. If anyone is caught damaging any of the fountains this summer they will be punished severely.

Today was the last day on which persons could pay 1935 school taxes, before the taxes are filed, according to City Treasurer C. C. McKibben.

Penalty on unpaid 1935 city taxes now is eight percent. One percent discount can be had by paying 1936 school taxes before August 1. The 1936 city taxes can be paid at face during May and June. Tax collections for April, this year, were better than during April, 1935.

## CHOPPING BOWLS STEP OUT

The good old-fashioned chopping bowl may step out of its everyday role and appear as a centerpiece upon the dining table even when there are guests, if it is treated to a coat of bright colored paint. It may then be filled with fruit and flowers and occupy the post of honor in the middle of the table.

Try putting about a teaspoon of diluted vinegar or lemon juice in the pie crust to make it flaky.

Children like marshmallows and gingerbread. They can be fashioned out of cookie dough and decorated with cloves, strips of frosting and bits of raisins.

Sprinkle a little salt into the skillet before putting in the fish to fry, and the fish will not stick to the pan.

## DODGE PRODUCES WIDE VARIETY OF TRUCKS RECENTLY

Numerous Lines Of Business Purchase Standard, Special Purpose Models

Practically all lines of industry and business in which trucks and commercial cars are used have been represented during the month of April in the wide variety of units manufactured and shipped by the Detroit Dodge truck plant. This was announced here today through the J. R. Rick Motor Car Co., Dodge dealer, with showrooms at 468 East Washington street.

During the last several weeks an unusually wide variety of special and standard types of commercial cars and trucks have been produced and have ranged in load capacity from the half-ton commercial express car to the heavy duty three-ton trucks.

Analysis of the figures supplied by the special equipment department of the Dodge truck plant reveals that recently there has been an increasing demand for unusual types of truck bodies.

In the past week the special equipment department has turned out hundreds of different special purpose bodies which have been purchased for many fields. Some of them were: Accident prevention, medical, bus, aviation, baking, brewing, bottling, building materials, milk products, furniture, mortuary, gasoline, oil, roads and streets, ice cream, advertising, farming, florist, produce, refrigeration, meat-packing, sanitation, trucking and outdoor advertising.

The plant last month in addition to these many special models has turned out hundreds of the following standard types of trucks: Commercial sedan, Westchester suburban, two-ton tractor, commercial screen, commercial canopy, two-ton stake truck, commercial panel, three-ton dump, one and one-half ton panel, one and one-half ton stake truck, one and one-half ton chassis and cab, three-ton tractor, one and one-half ton dump, one and one-half ton canopy, one and one-half ton express and one and one-half ton stake trucks.

## THE PARENT PROBLEM

By Garry C. Myers, Ph. D.

**MOTHER'S TOO KIND**

THE FOLLOWING letter I present, somewhat disguised, to warn young mothers against too great self-sacrifice, and yet to encourage those whose self-denials have purchased innumerable opportunities for their children. You and I don't believe this mother was a failure. Without her self-forgetfulness how could her children have reached their heights of education? What a pity, on the other hand, that her love had not been tempered with a little more of self-protection so that her children might have grown less selfish and more appreciative of her!

"My dear Dr. Myers: Although my children are no longer in the adolescent class, there are times when I think they still are—and I feel the need of a little help. First, may I give you a brief family history that you may judge better how I failed."

"I am past middle age. I do all the work of a ten-room house as well as mending and dressmaking for two girls, in spite of the fact that I am handicapped by rheumatism, high blood pressure, and exhausted nerves. My own aim for the past twenty years has been to

give my children the best possible education and make them self-reliant.

"The education I have accomplished, but the self-reliance is weak. My husband (a retail grocer) works hard from 7 in the morning until late at night. His income never has been over \$1,200 a year, so you can see that our financial struggle has been great.

"My eldest daughter (now twenty-five) after high school attended a private kindergarten school, substituted in the public schools winters, and took two summer courses at Columbia, and last June graduated from Teachers' college. Her besetting sins are selfishness and jealousy.

**Son Fourth In Class**

"My son (twenty-three years old) attended M. I. T. for three years, and Annapolis for four years and on graduation ranked fourth in his class and is now on steamship—Then there is the daughter of twenty, quick-tempered, high strung and nervous. She is a junior at—standing well in her studies.

"My friends tell me that if my children are inconsiderate, selfish and thoughtless, I have only myself to blame, that I worked for them and waited on them until they are spoiled. My daughters think I am unsympathetic and expect too much of them. Whom shall I believe, and what shall I do? . . . But I'm growing tired—I dread to hear 'I'm bringing a girl down for the week-end. Will you have the guest room ready?' or, 'The same is coming tonight; what can you give us to eat?' What shall I do? Is it too late to begin?"

Of course not, I replied, "Begin at once to protect yourself."
